LED BULBS
by enertec

LED Technology has revolutionised the lighting industry.
The latest generation of LED bulbs use around 10\% of the energy of conventional incandescent and halogen lamps while providing the equivalent light output.

They are also insensitive to vibration and last considerably longer (approx. 40,000 hrs).
This advantage has huge benefits in both marine and mobile applications. Less energy draw affords longer running hours of lighting with less drain on your battery bank. This then requires fewer recharges of the batteries and thus longer battery life.
Juice LED replacement bulbs allow you to simple replace the existing incandescent or halogen bulbs without having to replace the entire fitting.

Furthermore Juice LED bulbs are designed specifically for the marine and mobile market with all lamps suitable for either 12 or 24 V applications while also have noise suppression built into each bulb. The majority of bulbs on the market do not have this suppression which can lead to interference on communication equipment such as VHF or SSB.

## Benefits:

- Very low power draw
- Low heat generation
- Long Life (40,000 hrs)
- Shock and vibration resistant
- Multi voltage (10-30V)
- Built in noise supression
- Simple drop in replacement

| MODEL | TYPE | VOLTAGE | POWER <br> CONSUMPTION | EQUIVALENT TO | DIMENSIONS |
| :---: | :---: | :---: | :---: | :---: | :---: |
| G4-9SP | G4 Side Pin | $10-30 \mathrm{~V}$ | 1.5 W | 15 W Halogen | 22 mm Dia. |
| G4-9RP | G4 Rear Pin | $10-30 \mathrm{~V}$ | 1.5 W | 15 W Halogen | 22 mm Dia. |
| G4-12SP | G4 Side Pin | $10-30 \mathrm{~V}$ | 2 W | 20 W Halogen | 30 mm Dia |
| G4-12RP | G4 Rear Pin | $10-30 \mathrm{~V}$ | 2 W | 20 W Halogen | 30 mm Dia |
| FES-37 | Festoon 37mm | $10-30 \mathrm{~V}$ | 1 W | 15 W Incandescent | $37 \times 17 \mathrm{~mm}$ |
| FES-42 | Festoon 42mm | $10-30 \mathrm{~V}$ | 1 W | 15 W Incandescent | $42 \times 17 \mathrm{~mm}$ |
| MR16 | GU5.3 | $10-30 \mathrm{~V}$ | 6 W | 35 W Halogen | $50 \times 50 \mathrm{~mm}$ |
| BA15S | BA15S | $10-30 \mathrm{~V}$ | 3 W | 25 W Incandescent | $65 \times 22 \mathrm{~mm}$ |
| BA15D | BA15D | $10-30 \mathrm{~V}$ | 3 W | 25 W Incandescent | $65 \times 22 \mathrm{~mm}$ |
| BAY15D | BAY15D | $10-30 \mathrm{~V}$ | 3 W | 25 W Incandescent | $65 \times 22 \mathrm{~mm}$ |
